PRESSPAGE

Boost the results of your PR

Take control of your digital public relations with PressPage

PressPage offers a premium software platform for PR professionals in which news releases, articles and blogs can be easily created, distributed and analyzed. The platform provides one central home for all your content, all built in the same look & feel as your corporate website. We provide all the tools you will need to build a world-class news center for your organization.

The possibilities are endless, all in one easy to use platform!

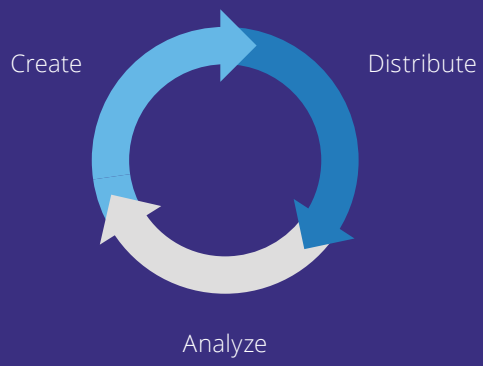

- Use 30+ features with the latest in multimedia and social media technology
- Enjoy the latest multimedia plug-ins, like infographics and video
- Personalize your content by using images, contact details and social media accounts
- Customize the layout of your newsroom
- Design engaging and interactive online newsrooms simply by dragging and dropping elements
- Plug and play platform, no IT involvement needed

PRESSPAGE

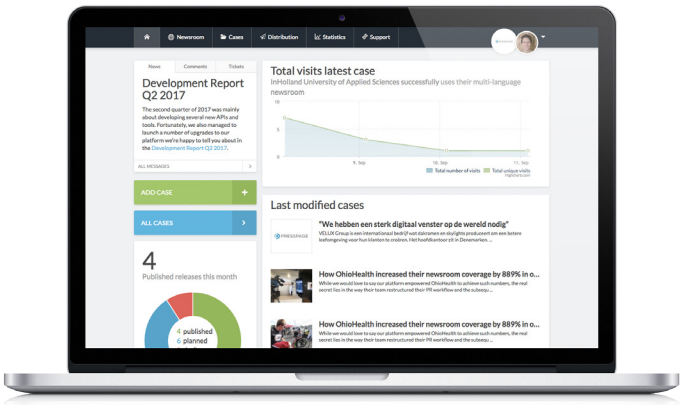

Boost the results of your PR

Our approach

- **Create** - all content in one place, many formats to use
- **Distribute** - easy distribution to multiple channels
- **Analyze** - real time insight in results of content

We focus on PR, just like you.

Benefits of using a modern newsroom

Provide one place for stakeholders to go to for any information regarding your organization by using the PressPage platform. Use the same look & feel as your corporate site, and communicate your brand image clearly and consistently.

It is easy to gather the ROI of your PR efforts by analyzing real time data, and accessing in-depth elaborate reports to analyze the results in-depth. You can skip shipping costs for PR and marketing collateral, and you can stop paying for news wires by using this modern newsroom platform.
